

Perland Memorandum

TO: BOB HUIE

DATE: JULY 25, 1990

FROM: BOB WESTIN

SUBJECT: PHASE 1 SEDIMENT SAMPLE RESULTS - CERRO COPPER CS-A

I am enclosing a summary of the PCB, Flashpoint, and TCLP metals data from the Phase 1 sampling of the Cerro CS-A sediments on 50 foot centers.

Please note the following:

Flashpoint: * indicates no true flash observed, but suspected flash seen.

PCBs: Results reported as total PCBs. Most samples contained a mixture of various Aroclor products.

TCLP metals: * Indicates none detected at detection limit listed.

This completes the data from this phase of the sampling at Cerro CS-A.
